MULHERIN

Air & Electrical

Welcome

Mulherin Air and Electrical is a locally established business, built from two long standing companies merging in 2025 - Powerfast Electrical and Mulherin Air Conditioning Services.

Brett Mulherin and Jason Russell have 50 plus years in the industry. We specialise in a wide range of fields including new domestic constructions, commercial construction projects, as well as servicing local homeowners and businesses for their installation and maintenance requirements.

MULHERIN

Air & Electrical

What we do

We deliver residential and commercial electrical and air conditioning solutions for Mackay and the surrounding areas.

Our team delivers reliable, cost-effective solutions across all aspects of electrical and refrigeration, minimising timeframes and increasing job efficiency with a more streamline communication approach across both trades.

We collaborate closely with project supervisors, owners and contractors to deliver projects that perform to the highest standards and provide long-term reliability, whilst working to stay on schedule and budget.

Refrigeration:

- Split systems
- Ducted Systems
- Multi-head systems
- HVAC Commercial Systems
- Ventilation/exhaust systems
- Air quality assessments
- Duct work and system balancing
- Maintenance, servicing and cleaning

Electrical:

- Design and construct
- Large switchboard modification and upgrades
- Commercial and industrial projects
- Emergency and exit lighting
- Underground pit and conduit systems
- Data and communications
- CCTV
- Residential electrical installation
- Starlink

Organisation Structure

Mulherin Air and Electrical consists of a well-trained team including two directors, two administration staff, two supervisors along with 20 team members. We are committed to regular safety meeting held by an independent trainer, as well as mandatory requirements LV/CPR. We are committed to continual professional development through external courses in staff and project management. Our company is committed to the next generation, by providing ongoing training and support to both Electrical and Refrigeration apprentices.

Social Responsibility

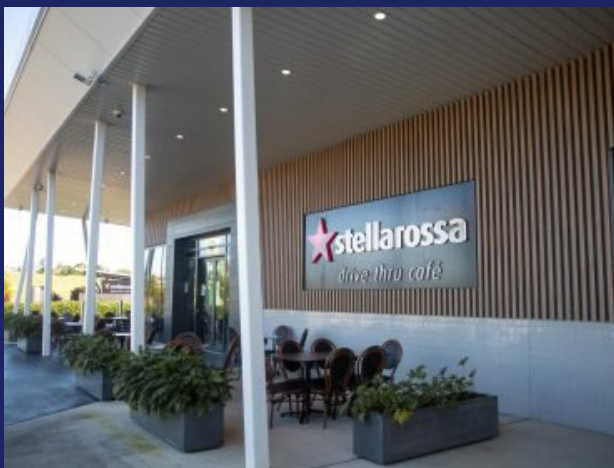

Both directors are born and bred in the Mackay region, both love giving back to our community through sponsorship and volunteer roles.

We are committed to the next generation hosting school work experience placements, while also creating employment opportunities by mentoring apprentices and investing in the next generation of skilled tradespeople.
